

Love Isn't Here (Like It Used To Be)

Frankie Valli

Will there ever be a place
Where I really wanna stay?
Will there ever be a reason
As to why you went away?
Where'd you go the day you said goodbye to me?
Was there something in the past I didn't see?

Love isn't here like it used to be
I'm sorry, dear, like it used to be
Love isn't here like it used to be
But do you want it, dear, like it used to be?

Will there ever come a time
I can think of you and not cry? (Baby, baby)
Will there ever be a night
I sleep alone and not ask why? (Whoa)

No regrets if you can't leave the past behind
I'll be there if you should ever change your mind

Love isn't here like it used to be
I'm sorry, dear, like it used to be
Love isn't here like it used to be
But do you want it, dear, like it used to be? (whoa)

(Love isn't here like it used to be)
Inside me (like it used to be)
Love isn't here like it used to be
No love like it used to be
