

# Wheel Of Time

## Freedom Call

Lost with fear in the darkness  
Out in the cold and the rain  
Through thunder, storm and fire  
We are one, and one for all  
Tearing down the walls inside  
A rebellion starts to rise  
In times of war, a rebel yell  
It's a cry... Stand up and fight

Ride out in the silence  
In despair of these godless lands  
Let us hope and pray for freedom  
In the Land of the Light

Turn up the wheel of our time  
The circle of life  
Turn it on turn on we are flying  
At the speed of light  
Turn up the wheel of our time  
With power inside  
Get it on get it on we are rising  
To the top of heavens high

If you're diving down in your torment  
A lake of fallen tears  
If the crown of the king is tumbling down  
It's time... Stand up and fight

Reach out of darkness  
To the land of the glorious light  
Let us pray for hope and freedom  
For a kingdom in the skies

Turn up the wheel of our time  
The circle of life  
Turn it on turn on we are flying  
At the speed of light  
Turn up the wheel of our time  
With power inside  
Get it on get it on we are rising  
To the top of heavens high

Turn up the wheel of time  
The circle of life  
Turn up the wheel of time  
The circle of life  
Turn up the wheel of time  
The power inside  
Turn up the wheel of time

Turn up the wheel of our time  
The circle of life  
Turn it on turn on we are flying  
At the speed of light  
Turn up the wheel of our time  
With power inside  
Get it on get it on we are rising

To the top of heavens high
