

The things we love things we need  
Take my heart away

I am standing here in front of you now  
Take my heart as a gift I am saying sorry

The family we used to be  
But I can't take them back  
I just can't forgive myself  
So sorry, please let us work it out

Sometimes we just forget the importance  
Of things we see every day  
But nothing lasts forever - face the truth  
[Things we love, things we need]
