

I never figured it out the price you've gotta pay  
All these voices in my head said 'It's not okay'  
Oh baby givin' me love - these damn and sweet needs  
I'll never give you my heart it's not that you can stay  
Right here next to me

Oh it feels so damn good when you can feel your needs  
Every other obscurity makes me bleed  
So much more than this

And I, I can't live without  
I'm freaking out  
[Just give, just give me more]  
[Just give, just give me more]  
I can't live without  
I'm freaking out  
[Just give, just give me more]  
[Just give, just give me more]

I don't need you anymore  
I always figure it out the price I've got to pay  
But 30 minutes in heaven are worth living in hell  
And it makes but it takes my days and fears  
I don't want this to end  
Every other obscurity makes me bleed

And I, I can't live without  
I'm freaking out  
[Just give, just give me more]  
[Just give, just give me more]  
I can't live without  
I'm freaking out  
[Just give, just give me more]  
[Just give, just give me more]

I'm gonna need all my time just to say:  
My baby, I never wanted to make my life so bad  
But I missed the point again  
So give me back my life just give me back my pride  
I can't go on like this no more  
I never wanted to make my life so bad

I don't need you I just need to get out of here  
Baby you'll need someone else's love and fear

I, I can't live without  
I'm freaking out  
[Just give, just give me more]  
[Just give, just give me more]  
I can't live without  
I'm freaking out  
[Just give, just give me more]  
[Just give, just give me more]

You make me feel so good  
[Just give, just give me more]  
[Just give, just give me more]

You make me feel so good  
[Just give, just give me more]  
[Just give, just give me more]
