

Collision

Front Line Assembly

Danger is what you see prolongment to be
Can't stick to orders confined to your rights
Don't stand in the way you'll only fall back
Tell you who waste your life you can't stop it now

?? the time has come we have to move on
Stand in one place for never too long

Don't stand in the way

The dark vision ?? but we have to reach out
Without a decision you can't go too far
Danger is what you see prolongment to be
Can't stick to orders confined to your rights
