

Dissension

Front Line Assembly

Let my DNA run through your mind Let my DNA destroy all mankind

Massive complications Twisted degeneration Desperate salvation
Massive complications

Give me shelter from above Send two angels and a dove As we hang on to despair Tears of blood run from your eyes As we cannot hide the lies Breathing in this toxic air

Feel the anger in my eyes Feel the sorrow from all your lies Feel the anguish in my brain Chemical mind fuck This life in disdain

Massive complications Twisted degeneration Desperate salvation
Massive complications

Give me shelter from the pain as this hate drives me insane Seeking refuge from the rain All in all we do believe as we try to conceive In this glowing afterlife Give me shelter from above Send two angels and a dove As we hang on to despair Tears of blood run from your eyes As we cannot hide the lies Breathing in this toxic air
