

# Mental Distortion

## Front Line Assembly

Morbid faces  
Their twisted face  
You'll live to regret  
this, this day  
Severing all the doubt  
Caustic evil  
You're nothing but  
a shadow of yourself

bring down emotions  
A will to resist  
Mental distortion  
Agony persists

Violence to aggression  
Psychotic madness  
Mortal persuasion  
A line of paranoia  
White harshness

Believe, believe in destiny  
Swallow, swallow the lies

A chance to ?  
Tighten the grip  
? alive  
? eradicate  
?  
no no ? soul

Contract emotions  
A will to resist  
Mental distortion  
Agony persists

?  
they start to construct  
Power against Power  
Where will it end  
?

twisted face  
You'll live to regret  
This day  
Caustic overtones  
Evil shadow  
you're nothing to me
