

Feather Bed

Fruit Bats

Baby open wide you got the light in you
Can't gimme too much love

I always really thought you never gave enough
But now there's too much love
But can't give too much love

Babe I'll be the blanket on your feather bed
I'll be the lump of sugar in your tea
Everybody knows that I depend on you to gimme too much love

So baby give the lantern to the fireflies
And gimme too much love
Roll on down the road 'cause I've been needing you to gimme too
much love

Babe I'll be the blanket on your feather bed
I'll be the sweetest apple on your tree
Everybody knows that I depend on you to gimme too much love
