I'll wait till I see a cloud Shaped like the Garden State And little stars are cars at turnpike gates And the moon is Delaware

Oh, I'll wait, I'll wait for the magic hour Go and find myself the biggest tree Cut it down and count the rings, oh

Time was once
When there was rustling in the reeds
Tiny tumbleweeds, pigeons on the porch
And there was dumb love fallers
Carpet crawlers spinning in the deck

Time was once
When there was rustling in the reeds
Tiny tumbleweeds, pigeons on the porch
And there was dumb love fallers
Carpet crawlers spinning in the deck

Oh, oh, I'll wait till I see a cloud Shaped like the Garden State And little stars are cars at turnpike gates And the moon is Delaware

Oh, I'll wait for the magic hour, I will wait I made this song because I made you stay And I will always love you Oh, I will always love you Oh, I will always love you
