

Open Your Eyes

Fu Manchu

Been runnin' in circles again
Platforms hide, take no instead
Left hand points down several lines
Hide your face, and open your eyes
Open your eyes!

I feel the weight of whole my back
Must be somethin' that I don't have
I feel the weight of whole my back
Must be somethin' that I don't have

Much shakin', draggin' you down
Nothin' said, but I heard a sound
Keep all time, wanna make it right

Hide your face and open your eyes
Open your eyes!

I feel the weight of whole my back
Must be somethin' that I don't have
I feel the weight of whole my back
Must be somethin' that I don't have

Another day, here it gone
Tracks are left, we rolled on
Nothing to do, hands are tied,
Hide your face, and open your eyes
Open your eyes!
Open your eyes!
Open your eyes!
Open your eyes!
