Fu Manchu

I drove a duster to the edge of the world  
Like nothing from nowhere, tank ridin' full  
It's a deep sea sound passin' right by  
'Cause I was drivin' one more time  
let's see which one I can get  
Still the best one I seen yet  
I only see what I want to see  
I only hear what I want to hear  
A barracuda let down, super shift it high  
'Cause I was flashin' one more time  
let's see which one I can get  
Still the best one I seen yet
