

## Weird Beard

Fu Manchu

Hundreds - thousands - millions  
Will appear  
He struggles to signal  
So says the weird beard

And he rides around  
For a chance to see it all  
Uncertain and unknowing  
We're sure he will fall

So he quickly takes the high road to where is not know  
He will return  
Down a slide to his throne

And he says - he says  
Weird beard

5 mile - 6 mile - 7 mile  
Wide  
As he sped toward the mountain  
An easy place to hide
