## A Song For Our Grandfathers

## **Future Islands**

Been a long time, in a low place Surrounded by what I have made Need to get away Get away from what relates And what was done...

Cuz it's all over now

Through the woods, I come running to loose leaf
And carve my name
In the lines, there's not a trace
I hear the ghost whisper, and those old eyes watching me
But I feel safe...
Grandfather looking over me

He said:
Don't make them wait
Gotta go a long way
Let's be brave
Don't make them wait
Nah, don't make them wait

I sat down, with a coffee on my bent knee Looking out, at the burnt land, looking back at me These used to be green crops And high on a summer breeze No it's fallow fields and clear-cut barren weeds

They said that if I stared
The abyss would stare back at me
So I did...
And I felt it slowly creep in me

Grandma watching over me

And she said:
Don't make them wait
Gotta go a long way
Let's be brave
Don't make them wait
Nah, don't make them wait

Don't make them wait, nah Don't make them wait

I hear the ghost whisper
And those old eyes watching me
But I feel safe
I feel safe
