

Clock

Futuristic

Oh yeah
Yeah, yeah

Sorry baby lately I've been on a crazy rapping spree
When I met you you said you ain't easy well girl you don't have to be, no
You can come thru like it's kung-fu we can kick it like we Japanese
When I get it I don't want no one to have it after me, no
And we make time
I'll take the time on you

For you I will make time, just watch
Put both hands on you, like a clock
Around we go
Around we go

And it will never, it will never stop
It will never stop
It will never stop
It will never stop
Like the hands on the clock, yeah
Like the hands on the clock, yeah

Know that I've been busy, meant to hit you from my iPhone
You've been runnin' up my bill FaceTime when I'm up in different time zones
But I'mma do things to you
We can do things soon as I'm home
I got a lot of work up on my plate, but I'mma push it to the side though
'Cause I know
That I just wanna make time for you, yeah
And I always have a great time with you, yeah, yeah

For you I will make time, just watch
Put both hands on you, like a clock
Around we go
Around we go

And it will never, it will never stop
It will never stop
It will never stop
It will never stop
Like the hands on the clock, yeah
Like the hands on the clock, yeah
And it will never, it will never stop
It will never stop
It will never stop
It will never stop
Like the hands on the clock, yeah
Like the hands on the clock, yeah

Yo, and time don't wait for nobody
So I don't wait for time
Made up my mind to make you mine, I'm never changing sides
If we decide to divide I know where to shed my shine
I walk the line to make sure you cross your T's and you dot your I's
I'm lost in 'em like every time
I never say nevermind
[?]

I put you ahead of myself
[?]
Ain't no better time, never sad
When nobody else for you I

I'll make time, just watch
Put both hands on you, like a clock
Around we go
Around we go
For you I will make time, just watch
Put both hands on you, like a clock
Around we go
Around we go

And it will never, it will never stop
It will never stop
It will never stop
It will never stop
Like the hands on the clock, yeah
Like the hands on the clock
And it will never, it will never stop
It will never stop
It will never stop
It will never stop
Like the hands on the clock, yeah
Like the hands on the clock, yeah
