I've been sensin a lot of tension now that I'm rappin,
but the kids used to look up to you, what happened?
Me on the contrary, hand covered with Platinum
Different colour Coupes but I'm in love with the black one.
On point, cause you get R.I.P.s what's slackin
so the stash box big enough to squeeze the mackin', yeah
I'm fairly new but I demand some respect
cause i already wear your advance on my neck
I'm fresh of the jet then i breeze to the beaches
Blue yankee fitted, G-Unit Sneakers
Already figured out what to do with all my features
decorate the basement, full of street sweepers.
When it comes to stuntin' there ain't nothin' you can teach us,
We're in a different time zone, your records don't reach us, naw
I ain't here to save the world, just roll up a blunt
come with me out front, I'll teach you how to stunt!

I teach you how to stunt

My wrist stay rocked
My T.V's pop up in the maybach Beennnnnz
I teach you how to stunt
You can see my Bentley G.T. got so great endz
I teach you how to stunt
My neck stay blingin, my whip stay gleamin, im shinin mannn
I teach you how to stunt

The kid's so icy, you dont have to like me
In a throwback jersey, with the throwback Nike's
I know you probably seen me with Cash Money from back in the days
The only thing changed, is the numbers on the range
I bought me an Old School, and blew out the brains
The Roc the Mic tour, I threw off my chain
My Spreewell's spinnin man, Im doin my thing
And whoadie now in trouble now, its you in the game
Come on now, we all know gold is gettin old
The ice in my teeth keep the Cristal cold
G-Unit homie, actin like ya'll dont know
Look - I cant even walk through the mall no more
I just pull up, get out, and get all the hoes
They never seen doors let up on a car before
Dont be mad at me dawg, thats all I know
Is how to show these fogaysies how its sposed to go

I teach you how to stunt
My wrist stay rocked
My T.V's pop up in the maybach Beennnnnz
I teach you how to stunt
You can see my Bentley G.T. got so great endz
I teach you how to stunt
