

# Something Real

Gabe Bondoc

I ain't about the whole drama thing  
The "he said, she said" ruins a lot of things  
I ain't saying that I'm seeing hearts  
Unless you see that in the cards  
And this is how a good thing starts  
I'mma do my pocket best from falling [?]  
'Cause I feel something real with you  
(I feel something real)

I'm gonna keep it in the pocket like aces  
You got me hanging in the air like a [?]  
And I think my face says what I can't say  
That you're out of this world, so I'm gonna give you space  
Play [?] like a headphone  
Girl, you're [?] on the crossbones  
I feel something real with you  
(Something real with you)

I like to, like to finally say I found you, sugar  
Even if you ain't feeling me the same way  
I like to, like to finally say I found you, sugar  
Even if you ain't feeling me the same way  
Yeah, now  
Even if you ain't feeling me the same way, yeah

I'm gonna be on my very best behavior  
And I'm gonna give you the feels that no one gave you  
Make your heart stop, call that the beat drop  
Take you up and down town, we can see-saw  
We could take our time like a wristwatch  
Just hang talk, like a wall clock  
I feel something real with you  
(I feel something real with you, baby)

I like to, like to finally say I found you, sugar  
Even if you ain't feeling me the same way, yeah (oh honey now)  
I like to, like to finally say I found you, sugar  
Even if you ain't feeling me the same way  
Yeah

Here's what I love to do  
Here's what I love to do with you  
Here's what I love to do  
Say that I found you  
Here's what I love to do  
Here's what I love to do with you  
Here's what I love to do  
Say that I found you

I like to, like to finally say I found you, sugar  
Even if you ain't feeling me the same way, yeah (oh honey now)  
I like to, like to finally say I found you, sugar  
Even if you ain't feeling me the same way

I like to, like to finally say I found you, honey  
Even if you ain't feeling me the same way, yeah (oh honey now)  
I like to, like to finally say I found you, sugar

Even if you ain't feeling me the same way, yeah now

Here's what I love to do  
Here's what I love to do with you  
Here's what I love to do  
Say that I found you  
Here's what I love to do  
Here's what I love to do with you  
Here's what I love to do  
Say that I found you
