Gadget

No need to hesitate
No one's here to save you from the end
Just ignore the facts
The piles of shit - all that remains

Walk into the light
Since no one ever did
Death - coming due
To fix your wounds and comfort you

The final decision
To accept your life's recission
No need to hesitate
It's just here to save you from the end

Walk into the light
Save yourself since no one ever did
Death - Coming through
Te final light that comforts you
