

## Out of Pace

No need to hesitate  
No one's here to save you from the end  
Just ignore the facts  
The piles of shit - all that remains  
Walk into the light  
Save yourself since no one ever did  
Death - coming due  
To fix your wounds and comfort you  
The final decision  
To accept your life's recission  
No need to hesitate  
It's just here to save you from the end  
Walk into the light  
Save yourself since no one ever did  
Death - coming through  
The final light that comforts you  
Forward  
Onward  
Homewards
