

# Skipping Stones

Gallant

Find me  
What am I missing?  
What am I missing?

Find me skipping stones, yeah, washed up rocks  
Holding out for something I can't force  
What am I missing?  
Oh, baby, what am I missing?

Where's the peace of mind  
I was told, I was told, I was told  
I'd begin it  
Feeling compromised  
Like I was born in a league of my own  
But I'm sinking

So find me skipping stones, yeah, washed up rocks  
Holding out for something I can't force  
What am I missing?  
Oh, baby, what am I missing?

I've gone for miles and miles in search of right direction  
I long to figure out, but I keep on forgetting  
All of the lessons that I've learned  
How many bridges have I burned?  
When did I go missing, somewhere in the distance?

Find me skipping stones, yeah, washed up rocks  
Holding out for something I can't force  
What am I missing?  
Oh, what am I missing?

Woah, girl  
Feeling  
Somber  
Say it to me, say it now!
