The world's desperated with irony, hunger and corruption The eastern world and the africans, too Are going to repeat the history of all wars And our industry supplied them with arms Everybody knows but nobody can do anything against it The fall of society is on the make

Well sometimes, sometimes I try to draw up a list I try to find out what they have done I thought of honorable murderers you know Like Jonah's hand might wrap around us

And anytime, everywhere in the world ...

Gamma Ray, Gamma Ray, Gamma, Gamma, Gamma Ray, Made of your existence
Gamma Ray, Gamma Ray, Gamma, Gamma, Gamma Ray, Money and our failing
I've waited for... to fire gamma ray!

Without body I could fly around the world Destroying arms, destroying rockets Mix all complexions of the whole human race We all would turn to shallow people

Everybody, everywhere in the whole world

Gamma Ray, Gamma Ray, Gamma, Gamma, Gamma Ray, Made of your existence
Gamma Ray, Gamma Ray, Gamma, Gamma, Gamma Ray, Money and our failing
I've waited for... to fire gamma ray!

Without body I could fly around the world Destroying arms, destroying rockets Mix all complexions of the whole human race We all would turn to shallow people

Gamma Ray, Gamma Ray, Gamma, Gamma, Gamma Ray, Made of your existence
Gamma Ray, Gamma Ray, Gamma, Gamma, Gamma Ray, Money and our failing
I've waited for... to fire gamma ray!
