

Street Ministry

Gang Starr

Presenting you with alternative music
'Cause, yo, the struggle is tough, and we must learn to live th
rough it
Pleasure and pain, pain and pleasure
We gotta maintain a balance to obtain the treasure

Not really preaching or teaching but just reaching
Out to a brother or sister who is keeping
The faith and trying hard to get straight
The time is crucial so I think we must congregate

Let's have a meeting of the minds
Before we all fall and get left far behind
Finding a way is important
Map out a plan, take a stand, you can work it

The future's all in your hands and
So of yourself, yea, you should be demanding
We're all responsible for whatever outcome
That's why I speak over beats for my income

Knowledge is key and if you ask what it is, G
It's just a form of my style of street ministry
Street ministry
