Dying Inside

Gary Barlow

```
D   F#m   D   F#m

   D                              F#m
1. How can I make sure no one notices me
   Bm                F#m          Em
   Dont wanna conversation with nobody
          G                            F#m
   And it hurts too much to say how I feel
                  Em             A
   What you dont know, is all I know
   D                              F#m
   How can I make sure that I fool everyone
   Bm                  F#m           Em
   Gonna wear a suit and tie and put my bravest face on
          G                            F#m
   And its far too deep to show you this wound
            Em             A
   No it wont heal no time soon
          Em                   A
   Nobody knows what Im going through

      Em G      D A
R: Im dyin inside
   Em               G
   Who knows what Im thinking
           D         A
   What Im trying to hide
      Em G         D A
   Yeh Im dyin all night
     Bm             G            F#m
   Im breathing but I cant feel life
      Em            F#m     Bm
   Im smiling but Im dyin inside

2. How can I make sure Im invisible
   Or find just a simple phrase that may say it all
   Cos its far too soon and not the right time
   What Ive seen was for my eyes
   And how can I make sure no one worries for me
   Cos I dont need helping hand and don't want sympathy
   Dont know what I need but know what I dont
   What you cant see it feels so broke
   That you cant see is how Ill cope

R: Im dyin inside
   Who knows what Im thinking
   What Im trying to hide
   Yeh Im dyin all night
   Im breathing but I cant feel life
      Em                F#m     G
   Im smiling but Im dyin inside

               D                          G
*: Want everyone around to think that Im alright
           D                                 A
   Hope they assume Ive left the dark and found the light
              Bm               F#m              G
```

```
    Want them to think that I dont cry myself to sleep at night

        Em G D A
Oooooh
        Em G D A
Oooooh

R: Yeh Im dyin inside...
```
