We generate heat We generate emotion We generate a feeling That is better left here Than a memory on a wall I'd rather cry than forget you We generate pain We generate suspicion We generate a rumour that's sick But a rumour that is probably true I'd rather die than forget you (I won't let my dreams slip away from me) I'm talking sex motion I'm talking 'bout fashion I'm talking 'bout skin games I'm talking 'bout secrets (And I won't let my heart run away with me) I'm talking temptation I'm talking 'bout memories I'm talking 'bout feelings I'm talking 'bout emotion We generate lies We generate pictures We generate a video film That I couldn't let my best friend see I'd rather lose than forgive you We generate shame We generate secrets We generate a reason for living And we generate a reason for not I'd rather hurt than forget you I can't believe that I'm here I can't believe what I've seen I can't believe what I'm doing to you
