

Always Holding On

Gateway Worship

I was a dead man walking
You were my only Friend
Out of the grave You called my name
You made me alive again

I was the worst of sinners
You were a blinding light
I was a slave to my own way
And You gave me a brand new life

Oh Your love won't let me go
Your love has saved my soul
Always holding on to me
Your love's always holding on to me

Now I'm a new creation
Everything left behind
Used to be lost but now I'm found
Found in the love of Christ

Oh Your love won't let me go
Your love has saved my soul
Always holding on to me
Your love's always holding on to me
Oh Your love won't let me go
Your love has saved my soul
Always holding on to me
Your love's always holding on to me

Yeah

Nowhere that I could go
Nowhere that I could hide
Nothing could separate us now
No way Your love is backing down
Nowhere that I could go
Nowhere that I could hide
Nothing could separate us now
No way Your love is backing down
Nowhere that I could go
Nowhere that I could hide
Nothing could separate us now
No way Your love is backing down

Oh Your love won't let me go
Your love has saved my soul
Always holding on to me
Your love's always holding on to me
Your love's always holding on to me
Oh Your love won't let me go
Your love has saved my soul
Always holding on to me
Your love's always holding on to me
Your love's always holding on to me
Yeah, oh
Your love, Your love, Your love
