

# West Side Story

Gazebo

West side story, under neon lights  
In a rainy city drive-in  
West side story, lovers at first sight  
Distant parents won't give in  
What I have is what I want  
And Maria is all I need to make it through the dull  
Need her now by my side  
Neon lights turn off  
Sun breaks the day  
On a road to nowhere

West side story, twenty years have passed  
In another city drive-in  
West side story, when the passions last  
And life ain't no easy win  
What we love is what we have  
And a kiss will sometimes help us think we are immune  
To show our sins to the moon  
Though the teenage nights are off  
And a son made his way  
West side story  
West Side Story  
Gone away ...

West Side Story's on tonight  
"The End" is fading away  
Again the neon lights turn off  
And the sun breaks his way  
West side story  
West Side Story

West Side Story fades away  
West Side Story lights turn off
