

'Cause you're lost in front of me  
It's true I'm losing you  
(2x)

And you know it's over  
When you're going down  
Take everything and live for the moment  
It's only gonna bring you down tonight

When you're locked up in my view  
It's true, I love you  
When you're locked up in my blue  
It's true, I love you

And you know it's over  
When you're going down  
Take everything and live for the moment  
It's only gonna bring you down

Bring you down (3x)

When I'm lost I'll come to you  
So blue, I'm feeling you  
When I'm lost I'll come to you  
I'm blue, I feel you

And you know it's over  
When you're going down  
Take everything and live for the moment  
It's only gonna bring you down

Bring you down (3x)

And you know it's over  
When you're going down  
Take everything and live for the moment  
It's only gonna bring you down tonight  
(2x)
