

Don't Forget

Gemma Hayes

Good morning,
What took you so long to receive our transmission?
Now let it comfort you
Don't forget
The light never left

Don't forget this ain't the truth
Don't forget yourself so soon

I see the state you're in
Felt too much and now you don't feel anything
Don't forget
It's just a light a you miss

Don't forget this ain't the truth
Don't forget yourself so soon

I can't believe it

Late at night the air is beaten black
We're lying, you've got your head on my stomach

Don't forget this ain't the truth
Don't forget yourself so soon
Don't forget yourself
Don't forget yourself so soon
