

Just When

George Jones

Just when I learned how to dance they changed the music
Just when I learned how to sing they changed the song
Just when I learned how to love they changed your mind babe
Just when I thought I'd found everything my everything was gone

Just when love felt so right I found I was wrong there
Just when I learned to trust he came along
Suddenly nothing I said made any difference
Just when I thought I'd found everything my everything was gone

You know that ol' lonesome world could buy it can sure make you
cry
Oh and a love I thought would last ah it's just now a thing of
the past

Just when love felt so right I found I was wrong there...
Just when I thought I'd found everything my everything was gone
