

She Used to Say That to Me

George Strait

Let's take a rest
Your kisses take my breath
You are the best
It's never been like this

She used to say that to me
Over and over so sweet
She'll tell you she'll never leave
She used to say that to me

It thrills you so
When she whispers soft and low
"Please hold me tight
I need your love tonight"

She used to say that to me
Over and over so sweet
She'll tell you she'll never leave
She used to say that to me

"I'm yours," she sighs
And she means it at the time
But someday she'll go
If you're wonderin' how I know

She used to say that to me
Over and over so sweet
She'll tell you she'll never leave
She used to say that
She used to say that to me
Over and over so sweet
She'll tell you she'll never leave
She used to say that to me

She used to say that to me
