

# Don't Get Any Better

Geri Halliwell

Take a road where imperfection's  
Never where you feel the pinch around the middle  
Makes you lose the beat  
And then you're stepping out of time

Underneath my clothes there lies a riddle  
Fix my tits, my ass or live a little  
Got me thinking twice  
A girl's allowed to change her mind

What I got is what I need  
And I know it's good enough for me  
And what I got, take it from me  
Don't get any better  
This is it, this is me  
I'm exactly where I wanna be  
This is life, take it from me  
It don't get any better

Under pressure, older, free, and single  
If you want to fit, you better mingle  
Don't go losing sleep  
You know it's gonna be alright

What I got is what I need  
And I know it's good enough for me  
And what I got, take it from me  
Don't get any better  
This is it, this is me  
I'm exactly where I wanna be  
This is life, take it from me  
It don't get any better

It don't get any better  
I'm flying for free  
It don't get any better  
Ah baby take it from me

What I got is what I need  
And I know it's good enough for me  
And what I got, take it from me  
Don't get any better  
This is it, this is me  
I'm exactly where I wanna be  
This is life, take it from me  
It don't get any better

What I got is what I need (what I got, what I need)  
And I know it's good enough for me  
And what I got, take it from me (what I got)  
Don't get any better  
This is it, this is me (this is it, this is me)  
I'm exactly where I wanna be
