

Let Me Love You More

Geri Halliwell

It's when I look at you
That I'm suddenly alive
And it all makes sense

When it feels so beautiful
Completely natural
Well it's love I guess

This is the closest thing
I've imagined it to be
With one kiss, one touch, I'm in heaven
We can make it last baby

Feel my love tonight
Knowing it's not goodbye
Leaving my heart at the door (heart at the door)
Keep it warm and true
Giving it all to you
I'm coming back for more
So let me love you more

It's when you look at me
That I feel like I'm at home
And it all works out

It's my own miracle
So free and wonderful
It's what it's all about

This is the closest thing
I've imagined it to be
With one kiss, one touch, I'm in heaven
We can make it last baby

Feel my love tonight
Knowing it's not goodbye
Leaving my heart at the door (heart at the door)
Keep it warm and true
Giving it all to you
I'm coming back for more
So let me love you more

Feel my love tonight
Knowing it's not goodbye
Leaving my heart at the door (heart at the door)
Keep it warm and true
Giving it all to you
I'm coming back for more

Why is it so confusing
I always thought
I couldn't love you anymore than I do
But I do

Feel my love tonight
Knowing it's not goodbye
Leaving my heart at the door (heart at the door)

Keep it warm and true
Giving it all to you
I'm coming back for more
So let me love you more

Feel my love tonight
Knowing it's not goodbye
Leaving my heart at the door (heart at the door)
Keep it warm and true
Giving it all to you
I'm coming back for more
So let me love you more
