Live Fast Die Fast

Me and the boys are, we're living for the night We're looking for adventure, we're looking for a bloody fight Always on the run, we're never gonna do what's right We're looking for chicks and we're looking for kicks We're living fast and we're living right

Live fast, die fast Don't worry 'bout the crash Hell bound on the coursecrash Living in the alley with the rest of the trash

Ah we're never slowing down, we're gonna party tonight We don't care 'bout nothing we're living like rats in a sewer p ipe You'll never stop us now, when we're running the red light Pick up a few racks at the corner store We're gonna get wild in the streets tonight

Live fast, die fast Don't worry 'bout the crash Hell bound on the coursecrash Living in the alley with the rest of the trash

Live fast, die fast Don't worry 'bout the crash

Hell bound on the coursecrash Living in the alley with the rest of the trash

Me and the boys are, we're living for the night We're looking for adventure, we're looking for a bloody fight You'll never, you'll never stop us now, you see we're running t he red light We're looking for some chicks, we're looking for some kicks and We're living fast and we're living it right

Live fast, die fast Don't worry 'bout the crash Hell bound on the coursecrash Living in the alley with the rest of the trash
