

That's a Fact

Gilbert O'Sullivan

I could dance all night, I could shake with delight,
It's as simple as that and that's a fact,
I could squeeze your hand, I could give a command,
It's so good to be back and that's a fact
You can be as cool as you like,
You can be as wrong as you are right,
It don't matter much to me,
Either way it's free I could dance all night,
I could shake with delight,
It's as simple as that and that's a fact,
One and one are two, that's a fact,
The sky above is blue and that's a fact,
Put it in the act,
You got a little woman and she's aware of that, all right,
Right, right I could dance all night 'til I'm wacked,
And that's a fact,
All night until I'm wacked;
You can be as cool as you like,
You can be as wrong as you are right,
It don't matter much to me,
Either way it's free You say some day, oh baby let's get away,
Me, I'll stay at home, to each his own
You say some day, oh baby let's get away
