Where Peaceful Waters Flow

Gilbert O'Sullivan

When the world you live in Really gets you down When you feel a pain inside you Starting to pound

And the girl you love She doesn't want to know Let an old friend as a Godsend Lead you to where peaceful waters flow

And if the day you thought Was drawing to a close Just drags on and on till when Only heaven knows

And the car you bought this morning doesn't go Let an old friend as a Godsend Lead you to where peaceful waters flow There you'll find

Much to your pleasure That you haven't got a care All the worries you had in you Are no longer there

Take my hand and I will lead you to a place Where the sun will warm your heart With all of its rays And the sky at night

Has such a magic glow It's feeling unbelieving In a land where peaceful waters flow Where you'll find

Much to your pleasure That you haven't got a care All the worries you had in you Are no longer there

Follow me and I will lend you to a place Where the sun will warm your heart With all of its rays And the sky at night

Has such a magic glow It's a feeling unbelieving In a land where peaceful waters flow Where peaceful water flow

Take me to where peaceful waters flow Take me back where peaceful waters flow
