

New World Order

Girls Under Glass

Oh come my love yeah I am your love
One love among
Breaking our wall
You are close to me
You are close to me
In a new world order in a new life given
I feel lost and lonely in the world I live in
I am your rain I am your dust
You are my pain you are my trust
In a new world order in a new life given
I feel lost and lonely in the world I live in
In a new world order
I don't know who I am
In the cold and dark world
I just don't understand
Without any hurt without any tears
Come oh my love let's be one -
You are close to me
In a new world order in a new life given
I feel lost and lonely in the world
I live in, in a new world order
I don't know who I am
In the cold and dark world
I just don't understand
