Whatever Makes You Happy

Girls Under Glass

Whatever makes you happy I'll do it for you Whatever makes you happy I am there for you

I see the light in your eyes Like stars so bright They are the dawn in my life I look at you and love this light

Whenever I see you being sad I wanna make you glad

Whatever makes you happy I will be there
I want to make you happy Here and anywhere

Whatever makes you happy I'll do it for you Whatever makes you happy I am there for you

Whatever makes you happy I will be there I want to make you happy Here and anywhere

Whatever makes you happy I'll do it for you Whatever makes you happy I am there for you
