

Author knows my rhythm

Gladiator

Just right horny, another roam
unpack your bounty, venus delta
rape me on bottom, lick me tear
knack of your tongue, it's a mad bullet
Open your hole, ride on like you ride on ski
fast'n'dangerous as you can
Uncommon day, you know you live, take a while off
So come, you know what belongs to you
know a lotta us are dangerous
a lotta us, I'm dangerous, knock
on my door, do me, gota!

Don't, don't try my fallings
nothing's more than heartache pain
My author he knows my rhythm
Nothing's more than ... I must hate you
I must be tortured by you
(... nothing's more than my love to you)

I need your vision, I need your real
licking all your passion, sweaty holes
you'd take silence, you'd take a screamin'
you'd awaken us like drop in drop
Licking your feet I love the bottomless well
It's a natural, animal
Some things we do 'cause we know it's right
feeling inside

All the prayers, the pictures
All things of our world
Don't let go of all these times with you
