

## Malevolent Reign

## Glamour of the Kill

As they fall to their knees  
You know I will rule them all  
They will follow me for the rest of their days  
As they fall to their knees  
You know I will rule them all  
They will follow me for the rest of their days  
Til the end

As they fall to their knees  
You know I will rule them all  
They will follow me for the rest of their days  
Til the end

Til the end

As they fall to their knees  
You know I will rule them all  
They will follow me for the rest of their days  
Til the end

As they fall to their knees  
You know I will rule them all  
They will follow me for the rest of their days  
Til the end
