

You're All The World To Me

Glee Cast

Everywhere that beauty glows, you are
Everywhere an orchid grows, you are
Everything that's young and gay, brighter than a holiday
Everywhere the angels play, you are

You're like Paris in April and May
You're New York on a silv'ry day
The Swiss Alps as the sun grows fainter
You're Loch Lomond when autumn is the painter

You're moonlight on a night in Capri
Or Cape Cod looking out at the sea
You're all places that leave me breathless

And no wonder you're all the world to me

And you're like Paris in April and May
You're New York on a silv'ry day

The Swiss Alps as the sun grows fainter
You're Loch Lomond when autumn is the painter

You're moonlight on a night in Capri
Or Cape Cod looking out at the sea

You're all places that leave me breathless
And no wonder you're all the world to me
