

# Christiaan No

Glen Campbell

Christiaan no no no Christiaan no  
Take the time to take the time to take it slow  
You'll be leaving soon enough to make the tear drops flow  
Christiaan no

You will grow grow grow Christiaan grow  
You will glow like the moonlight on the snow  
You will fly like the snowflakes when the wind begins to blow  
Take it slow, take it slow

And don't listen when the people put you on  
And don't cry over someone who is gone  
I will carry you until you carry on  
Carry on son, carry on  
Cause it's hard to know what you want to be  
When you're just a little boy who's turning three  
Or you're just a little boy who's only turning twenty-nine  
Take your time-take your time

Christiaan yes yes yes Christiaan yes  
You can prevent the world from being repossessed  
I must confess that we've left it in a mess  
But you can save it if you try to do your best  
Christiaan yes Christiaan yes Christiaan yes Christiaan yes
