

# Comeback

Glen Campbell

I wrote the book on self preservation  
And I'm a firm believer in my piece of mind  
But lately I've been looking back a little too much of  
the time  
And you know what I see that I'm losing control of me

I took a good look at the situation  
And I'm committed now though I know it's wrong  
Cause when it comes to loving you, I never stop singing  
that song  
I'm trying to say, I can't let common sense get in the  
way 'cause

I'm making my comeback by going straight back to you  
It's gonna get rough when that same old stuff starts  
flying again  
I'm making my comeback, well, I'm making my first debut  
Cause I wanna be a star, I just wanna be a star like  
you made me then

There is no joy in self destruction  
I did better off leaving the past alone  
The dirty dishes keep telling me I'm not sure thing on  
my own  
But it's better to be unhappy in your company so

I'm making my comeback, girl I'm going straight back to  
you  
It's gonna get rough when that same old stuff starts  
flying again  
Girl, I'm making my comeback, ooh, I'm making my first  
debut  
I wanna be a star, I just wanna be a star like you made  
me then so

I'm making my comeback, comeback, girl I'm going  
straight back to you  
It's gonna get rough when that same old stuff starts  
flying again, lord

I'm making my comeback, comeback, well, I'm making my  
first debut  
Cause I wanna be a star, I just wanna be a star like  
you made me then...
