## For Sure, for Certain, Forever, for Always

**Glen Campbell** 

When you call to me
I will hear you
I'll be near you
Through storm and strife

And I will love you For sure, for certain Forever and always For-or all of my life

And in the darkest night Close together When winter weather Cuts like a knife

I will still love you For sure, for certain Forever and a-always For-or all of my-y life

And if the sky should fall And shatter 'round me And fire surround me Through terror's rife

I will still love you For sure, for certain Forever and a-always For-or all of my life

I will still, I will love you For sure, for certain Forever and a-always For-or all of my life

For all of my-y life
