

Wishing Now

Glen Campbell

Just another day
And I think I'll die before it ends
It's just another day
And I sure like to go see my baby again

Time was when I did not know
What they meant when they said a man was blue
But now I know because of you
What I know because of you

Sweet darlin' I am just wishin' I could be with you again
Right now, right now
Sweet darlin' I am just wishin' I could be with you again
Somehow, somehow
Sweet darlin' I am just wishin' now

Just another day
There ain't nothin' going down
Nothin' going down I already know
'Cause I already called around

I am worse, when I did not know
Just what they meant when they said a day went wrong
But now I know it's been too long
Since I knew it had been too long

Sweet darlin' I am just wishin' I could be with you again
Right now, right now
Sweet darlin' I am just wishin' I could be with you again
Somehow, somehow
Sweet darlin' I am just wishin' now
