

A Right To Live

Glenn Hughes

Yeah, Yeah

Oh, Baby

I'm walking down on the street of love
Don't hear a sound, only God above
I should have known on that winter's day
That you are the one who changed my life in other way
Don't have to worry anymore
Cause i got a right to live

You stole my will from the very start
Bad situation, I was lost in the dark
I don't have to fight to get what is mine
Cause there's a footprints in the sand
Have been there all the time
Don't have worry anymore

Chorus:

I don't wanna talk cause so been's got to give
You know, I got a right to live
I don't wanna listen, I hope you will forgive me
You know, I got a right to live

There was a maze that I climbed up for love
I was afraid that my heart was gonna stop
I call out your name, I said, come rescue me
There's a vision of light, then you set me free
You don't have to worry anymore

Chorus:

I understand that you love me
I understand that you care
I understand that nobody else
Could love me quite the way that you do

Chorus:

I don't wanna talk cause so been's got to give
You know, I got a right to live
I don't wanna listen, I hope you will forgive me
You know, I got a right to live

Yes I'm walking, I'm walking down the road again
Yeah, come on baby, come on babe, come on baby
I got a right to live
