

Here Come The Rebel

Glenn Hughes

I gotta warn you babe, you've been told
I can sleep, you know you got me wrong
I think about you babe day and night
I can see street doll and the thin right

Won't you let things be 'cause you're my friend
Here come the rebel baby once again

You got me wrong and babe I'm your slave
Just big gun you'll show good you behave
You packed a hat you gotta quit that stuff
That's loose enough no babe enough is enough

Won't you let things be 'cause you're my friend
Here come the rebel baby once again

I'm a rebel baby

If you keep mistreatin' me this way
You'll wake up and now the gun's on dead
If ask yourself is this is wrong or right
Woke up the dead you can win this fight

Won't you let things be 'cause you're my friend now
Here come the rebel baby once again

Here come the rebel baby once again
