

## This Time Around

Glenn Hughes

The world around us hangs in doubt  
You face a crime that we'll hear about  
To pay the cost, would never be the same  
Eternal lovers, we're not to blame  
There's no mistake, there's no refrain  
The same surroundings that stood  
Are here again - this time around  
As I look around you can't be found  
To lose you, I'd rather see the endless  
Time and space go passing by  
This time around  
This time around  
So look around, we all will be found  
In love  
The world around hangs in doubt  
You face a crime that we'll hear about  
To pay the cost, would never be the same  
Eternal lovers, we're not to blame  
There's no mistake, there's no refrain  
The same surroundings that stood  
Are here again - this time around  
As I look around, you can't be found  
To lose you, I'd rather see the endless  
Time and space go passing by  
This time around  
This time around
