

Where There's a Will

Glenn Hughes

Don't break me I hope you won't forsake me If only for a day, it won't be long I stumble And if the mountains do crumble The sun will show the way It will guide me where there's a will There's a way

Hey yeah Hey yeah

Cold fever I'm not a lone deceiver Soon autumn will be gone Long long gone My invention I gotta soul intention I try to carry on It will take me where There's a will there's a way
