

Wherever You Go

Glenn Hughes

Wherever you go Just like a star in the night You got to keep shining
Wherever you go

Sun Fall from the sky Lay down your body and soul you have got
to keep shining Wherever you go

You live in your fantasy And you'll never die I know that you long
to be Again satisfied

Rain Rises the sea Carry the weight on your shoulder, you gotta
keep flying Wherever you go

Kill Me with your sigh Somewhere the race has been won, you just
gotta keep flying Wherever you go

You live in your fantasy And you'll never die I know that you long
to be Again justified A bitter reality When it comes to an end
You're facing a tragedy Same old story again

Sail On through the night Hope you will try to imagine, that you
u'll keep on shining Wherever you go
