

# Rise of the Sacred Star

Gloryful

Lost in time  
A blessed star burns the night  
Immortal light  
The shadows move aside  
Falling down  
Flames from the skies  
Silence screams  
When darkness dies  
The chosen one  
With flash and light  
Unleash the force  
For a glory ride

The sacred star will rise

The sacred star shines bright  
Enlight us - receive the holy light

Feel the force  
An avalanche of power  
Break the chains  
Become a mortal god  
Written on the wind, our destiny  
'til the end of time, guts is the key  
Follow the crown into our fate  
Heroes reborn, a chance we take

The sacred star will rise

The sacred star shines bright  
Enlight us - receive the holy light
