

# Blood Guilt Eucharist

Goatwhore

All the crucified bleed from ribs  
False words of the church  
Research of evolving change  
Tortured by the hand of fire  
Condemned to demise in lust  
This forgotten trial of the witch holocaust  
The harvest moon feeds swarm  
Bringing crops to fertilize the new breed  
The new plague, embrace swarm  
Cataclysm of the new found population control  
Sacrifice the mosquito egg  
Feverish prophecy born from the waters of storm  
Temples raised from the skulls of dead victims in battle for god  
All altars praised as the lamb changes form for prayer  
Burning fires led by trials of the unconformed  
Exiled bodies of the plagues burned for the comfort of faith  
Mythic beyond  
Raging waters of revenge  
Overbearing scroll  
Mistakes of your God  
Your Idol  
Your soul  
Worship new found prophet  
Sickness waiting for the weak  
Lost pages of beliefs  
Denying bodies of the deaed  
Aggression your ruler  
Perish as slave to this hostile world  
Leper in colony of the born again  
This virgins bleeding deception inverted garde n of the first race  
Suffocation in starvation  
Sitting on the throne of the unforgiven  
Knees sore from crawling  
To make peace for insult of the grave  
Mercy for the dying  
May all be damned to follow this same fate  
No life is worth supreme sacrifice  
This funeral of the magnificent  
Crushed with tyhe sympathy for your dead  
Exiled to hear the winds of grief  
...Alone  
Restructured in a shallow place  
Perception now bleeds with these same writings of disgrace  
Sacrifice the kill to the Dark Lord  
Die for us,  
Leaving your soul to be crushed  
Taking form in hallucination  
Entering the broken seal of final creation  
Brushing the palms upon fields of gold grain  
This belief does not exist in the world that lives by no name
